CORE VALUES

Responsibility

We don't allow the formation of risky environments. We act within the framework of ethical values and principles. We do our duty with overall responsibility. We predict the results of our behaviours and words and bear the responsibility.

Sense of Justice & Honesty

We act fairly and provide equal opportunities to all our employees located in different geographies. We build our relationships on honesty, fairness and trust with all our stakeholders. We are true, clear and consistent in our words and behaviours. We encourage everyone to express his/ her thoughts.

Transparency

We work in the open communication. We share our knowledge and experience. We work with a feedback culture. We share our ideas with a questioning culture.

Loyalty

We let you work with high motivation. We encourage achievement and reward it. We support each other. We are part of a strong and learning organization.

Continuous Improvement

We explore and question in the light of science. We are following the change and become a part of it. We support our teammates' potentials and creation of value. We renew ourselves constantly and get prepared for the future.

Teamwork

We work together for the same goal as a part of a global team. We share our ideas, technologies, capabilities and achieve our goals as a team. We trust each other both individually and as a team member and share the responsibilities. Difficulties cannot bring us down and we learn from each other.

Respect For People & Nature

We give importance to each other. We respect the differences. We are respectful to nature and environment and work within the awareness of our social responsibilities. We build our relationships and communication within the frame of respect.

Our Vision

To be an institution that learns, constantly develops, is open to change, innovative, sensitive to the environment, cares about customer needs, stands out in the sectors in which it operates by protecting its competitive side, and all its internal and external stakeholders are happy to be together.

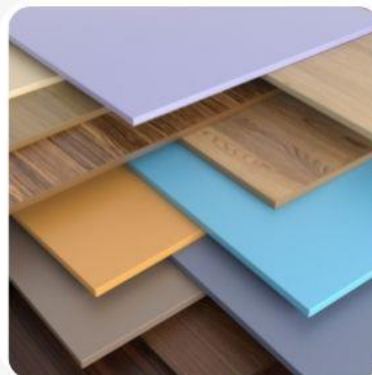

Our Mission

To deliver quality, innovative, reliable and environmentally friendly products on time and at a high service level, by creating sales points close to the market in the geography of the sectors in which it operates.
